Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for the New San Juan District Puerto Rico Drainage Project in Fiscal Year 2023.

The entity to receive funding for this project is the Municipality of San Juan, located in 153 San Francisco Street, San Juan, Puerto Rico 00901.

The purpose of this project is to fund the cleaning of three sections of drainage canals located in the Hato Rey Norte area in San Juan. The canals are currently clogged with vegetation and debris, causing increased flooding activity that impacts private and public infrastructure. The project would improve resiliency, impact an area of high population, and support economic activity, residents, and businesses. Reducing the occurrence of flooding will also assist in mitigating damages from natural disasters.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Jennifer González-Colón
Member of Congress
